TIMA INTERNATIONAL GMBH

TIMA International is a cluster enterprise offering a comprehensive portfolio of industry services for developing and managing international value chains and sector-specific globalisation strategies.

TIMA business is done in explicit consideration of the ten principles of the United Nations Global Compact. Such principles rest on the internationally acclaimed catalogues of human rights, labour rights, environmental protection and anti-corruption.

For TIMA clients this approach pays off: The result is process leadership, sustainability and outperformance in the world of globalisation.

TIMA and its cluster partners excel at:

- business development
- business process development
- merger and acquisition
- project steering and coordination
- ICT
- system integration
- shared services
- logistics
- process evaluation
- certification of value chains
- education and training

In 2004, TIMA – for the first time – developed, coordinated and mediated an international UN Global Compact project with the international medical industry, International organisations, government organisations and public and private institutions.

In 2006, under the leadership of Dr. Achim Deja, TIMA herself joined the United Nations Global Compact, and also became a signatory of the special UN GC initiative “Caring for Climate.”

Dr. Achim Georg Deja,
President and CEO of
TIMA International

In October 2007, TIMA organised its first UN Global Compact Management training at the World Conference Centre in Bonn. The highlight of the seminar was the participants' signing of the TIMA Code of Conduct, thereby committing themselves to comply with the UN Global Compact principles in their projects with TIMA.

First TIMA International GC Management Seminar – supported by smi-Hyundai and the AGBC at the World Conference Centre in Bonn.

TIMA Code of Conduct, signed by the seminar participants on 19 October 2007 at the World Conference Centre in Bonn.
